Education

Wellesley College Wellesley, MA

Bachelor of Arts in Computer Science and Psychology *Expected Graduation: May 2028*

- Organizations: TCO Multicultural/Publicity Chair, Wellesley College Choir, AI Club Treasurer
- Coursework: Human-computer interaction, Fundamentals of Algorithms, Fundamentals of Programming, Data Structures, Combinatorics and Graph Theory, Data Analysis in Psychological Science, Social Psychology, Personality

Experience

Startup Intern September.2025 - Present

avocadohealth.ai *Remote*

- Sourced and analyzed medical journals and research articles to strengthen the company's AI health database
- Explored email marketing models in digital health and conducted competitor analysis in the pediatric AI space

Research Assistant May.2025 - Present

Wellesley College, LAC Lab, Advisor: Wednesday Bushong *Wellesley, MA*

- Programmed and optimized experimental workflows using EyeLink eye-tracker hardware and Psychopy software application, improving data accuracy and collection efficiency
- Designed and implemented 400+ lines of stimuli code experiment in psycholinguistic perception
- Deployed web-based behavioral studies using FindingFive and managed participant recruitment, analyzed responses and timing data using R, producing visualizations and summary statistics to support hypothesis testing

Industry Sponsor/Logistics Team Leader April.2025 - Nov.2025

Wellesley Hackathon - WHACK *Wellesley,MA*

- Secured sponsorships through outreach, proposal writing, and creating sponsorship packets, contacting 20+ companies per week
- Managed end-to-end event operations — coordinating theme, venue, supplies, scheduling, community engagement, and volunteer logistics while serving as the primary liaison between leadership, sponsors, and internal teams
- Oversaw day-of execution for 200+ hackers, answering questions, managing the Discord server, and troubleshooting logistical issues in real time

Software Engineering + Computer Engineering Internship June.2023 - Aug.2023

E Ink Corporation *Hsinchu, Taiwan*

- Collaborated cross-functionally with engineering, and production teams to understand interdepartmental workflows and system dependencies
- Researched and documented methods for improving product performance and reliability using internal data
- Supported quality assurance processes by conducting 200+ product inspections, identifying potential defects

Project

SWATCH | *Python3, ReactNative* | ***HackMIT 2025*** Sep.2025

- Built a personalized clothing recommendation engine using machine learning, leveraging user swipe data to predict preferences with $> 90\%$ accuracy on test data
- Integrated React Native frontend prototype to deliver real-time outfit recommendations
- Designed and implemented a style-weighted recommendation system that dynamically generates outfits (top+bottom or dress, with accessories)

Honors/Awards

- Research selected for oral presentation at the Linguistic Society of America (LSA) Annual Meeting, 2026

Certifications

- CITI Program: Social and Behavioral Responsible Conduct of Research, Quantitative Analysis Institute Certificate, AWS: Cloud Practitioner Essentials (In Progress), BEcamp: Business Bootcamp

Skills

Technical: Java, Python, JavaScript, HTML, CSS, R, SQL, LAtex, ReactNative
Developer Tools: GitHub, VS Code, Microsoft Office , R-studio, Figma
Laboratory: Eyelink Eye Tracker(Experiment builder, SR Eyelink), Finding Five, SPSS, Psychopy
Language :Fluent Mandarin, Fluent English, Conversational Cantonese
