Education

Wellesley College Wellesley, MA

Bachelor of Arts in Computer Science and Psychology, GPA: 3.62 *Expected Graduation: May 2028*

- Coursework: Cybersecurity Clinic(MIT), Foundations of Computer Systems, Human-computer interaction, Design and Analysis of Algorithms, Fundamentals of Programming(MIT), Data Structures

Experience

AI Security Undergraduate Researcher Jan 2026 - Present

MIT Sloan School of Management *Cambridge, MA*

- Evaluated AI security and risk materials to architect a comprehensive survey, defining 10+ core metrics to capture industry sentiment about AI security culture in organizations
- Processed and visualized 150+ survey data points to identify key trends, authoring the foundational analysis for an upcoming academic paper on AI security culture

Research Assistant for Language and Cognition Lab May 2025 - Feb 2025

Wellesley College, Advisor: Wednesday Bushong *Wellesley, MA*

- Programmed and optimized experimental workflows using EyeLink eye-tracker hardware and Psychopy software application, improving data accuracy and collection efficiency
- Designed and implemented 400+ lines of stimuli code experiment in psycholinguistic perception
- Deployed web-based behavioral studies using FindingFive and managed participant recruitment, analyzed responses and timing data using R, producing visualizations and summary statistics to support hypothesis testing

Startup Intern Sep 2025 - Dec 2025

avocadohealth.ai *Remote*

- Sourced and analyzed medical journals and research articles to strengthen the company's AI health database
- Explored email marketing models in digital health and conducted competitor analysis in the pediatric AI space

Software Engineering + Computer Engineering Intern Jun 2023 - Aug 2023

E Ink Corporation *Hsinchu, Taiwan*

- Researched and documented methods for improving product performance and reliability using internal data
- Supported quality assurance processes by conducting 200+ product inspections, identifying potential defects

Project

SWATCH | *Python3, ReactNative* | ***HackMIT 2025*** Sep 2025

- Built a personalized clothing recommendation engine using machine learning, leveraging user swipe data to predict preferences with $> 90\%$ accuracy on test data
- Integrated React Native frontend prototype to deliver real-time outfit recommendations

ASPH Case Competition Nov 2025

- Researched and proposed solutions to AI and marketing challenges in a team-based healthcare case competition
- Coordinated 15+ hours of team ideation and strategy development, resulting in a polished slide deck presentation

WBeauty | *Figma* Dec 2025

- Researched, wireframed, and prototyped a mobile app to streamline booking of beauty services for college students
- Conducted 8+ user interviews using a contextual inquiry framework; used feedback to refine user flows and visuals

Certifications

- MITx: Cybersecurity for Critical Urban Infrastructure, CITI Program: Social and Behavioral Responsible Conduct of Research, Quantitative Analysis Institute Certificate, AWS: Cloud Practitioner Essentials (In Progress), BEcamp: Business Bootcamp

Skills

Technical: Java, Python, C, JavaScript, HTML/CSS, R, SQL, LAtex, ReactNative
Developer Tools: GitHub, VS Code, Microsoft Office , R-studio, Figma
Laboratory: Eyelink Eye Tracker(Experiment builder, SR Eyelink), Finding Five, SPSS, Psychopy
Language :Fluent Mandarin, Fluent English, Conversational Cantonese
